IQTISODIYOT & TARAQQIYOT

Ijtimoiy, iqtisodiy, texnologik, ilmiy, ommabop jurnal

Bosh muharrir:

Sharipov Kongiratbay Avezimbetovich

*Elektron nashr. 2026-yil, iyun.
VI-qism*

Bosh muharrir o'rinbosari:

Karimov Norboy G'aniyevich

Muharrir:

Qurbonov Sherzod Ismatillayevich

Tahrir hay'ati:

Salimov Oqil Umrzoqovich, O'zbekiston Fanlar akademiyasi akademigi
Abduraxmanov Kalandar Xodjayevich, O'zbekiston Fanlar akademiyasi akademigi
Sharipov Kongiratbay Avezimbetovich, texnika fanlari doktori (DSc), professor
Rae Kvon Chung, Janubiy Koreya, TDIU faxriy professori, "Nobel" mukofoti laureati
Osman Mesten, Turkiya parlamenti a'zosi, Turkiya – O'zbekiston do'stlik jamiyati rahbari
Axmedov Durbek Kudratillayevich, iqtisodiyot fanlari doktori (DSc), professor
Axmedov Sayfullo Normatovich, iqtisodiyot fanlari doktori (DSc), professor
Abduraxmanova Gulnora Kalandarovna, iqtisodiyot fanlari doktori (DSc), professor
Kalonov Muxiddin Baxritdinovich, iqtisodiyot fanlari doktori (DSc), professor
Siddiqova Sadoqat G'afforovna, pedagogika fanlari bo'yicha falsafa doktori (PhD)
Xudoyqulov Sadirdin Karimovich, iqtisodiyot fanlari doktori (DSc), professor
Maxmudov Nosir, iqtisodiyot fanlari doktori (DSc), professor
Yuldashev Mutallib Ibragimovich, iqtisodiyot fanlari doktori (DSc), professor
Samadov Asqarjon Nishonovich, iqtisodiyot fanlari nomzodi, professor
Slizovskiy Dimitriy Yegorovich, texnika fanlari doktori (DSc), professor
Mustafakulov Sherzod Igamberdiyevich, iqtisodiyot fanlari doktori (DSc), professor
Axmedov Ikrom Akramovich, iqtisodiyot fanlari doktori (DSc), professor
Eshtayev Alisher Abdug'aniyevich, iqtisodiyot fanlari doktori (DSc), professor
Xajiyev Baxtiyor Dushaboyevich, iqtisodiyot fanlari doktori (DSc), professor
Hakimov Nazar Hakimovich, falsafa fanlari doktori (DSc), professor
Musayeva Shoirazimovna, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), professor
Ali Konak (Ali Ko'nak), iqtisodiyot fanlari doktori (DSc), professor (Turkiya)
Cham Tat Huei, falsafa fanlari doktori (PhD), professor (Malayziya)
Foziljonov Ibrohimjon Sotvoldixoj o'g'li, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), dots.
Faxridinov Zafarjon Faxridin o'g'li, O'zb. Res. Bosh prokuraturasi HIJQKD boshqarma boshlig'i
Utayev Uktam Choriyevich, Anijon viloyati prokurorining o'rinbosari
Ochilov Farkhod, O'zb. Res. Bosh prokuraturasi IJQK Departamentining Namangan viloyati boshqarmasi boshlig'i
Buzrukhonov Sarvarxon Munavvarxonovich, iqtisodiyot fanlari nomzodi, dotsent
Axmedov Javohir Jamolovich, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD)
Toxirov Jaloliddin Ochil o'g'li, texnika fanlari bo'yicha falsafa doktori (PhD), katta o'qituvchi
Bobobekov Ergash Abdumalikovich, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), v.b. dots.
Djudi Smetana, pedagogika fanlari nomzodi, dotsent (AQSH)
Krissi Lyuis, pedagogika fanlari nomzodi, dotsent (AQSH)
Glazova Marina Viktorovna, Iqtisodiyot fanlari doktori (Moskva)
Nosirova Nargiza Jamoliddin qizi, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), dotsent
Sevil Piriyeva Karaman, falsafa fanlari doktori (PhD) (Turkiya)
Mirzaliyev Sanjar Makhamatjon o'g'li, TDIU ITI departamenti rahbari
Ochilov Bobur Baxtiyor o'g'li, TDIU katta o'qituvchisi
Golisheva Yelena Vyacheslavovna, Iqtisodiyot fanlari nomzodi, dotsent.
Abdukarimova Dinara Rustamxonovna, bank-moliya akademiyasi professori, DSc., professor.
Ikramov Murod Akramovich, iqtisodiyot fanlari doktori (DSc), professor
Nazarova Ra'no Rustamovna, iqtisodiyot fanlari doktori (DSc), professor

IQTISODIYOT & TARAQQIYOT

Ijtimoiy, iqtisodiy, texnologik, ilmiy, ommabop jurnal

Editorial board:

Salimov Okil Umrzokovich, Academician of the Academy of Sciences of Uzbekistan
Abdurakhmanov Kalandar Khodjayevich, Academician of the Academy of Sciences of Uzbekistan
Sharipov Kongirاتبay Avezimbetovich, Doctor of Technical Sciences (DSc), Professor
Rae Kwon Chung, South Korea, Honorary Professor at TSUE, Nobel Prize Laureate
Osman Mesten, Member of the Turkish Parliament, Head of the Turkey–Uzbekistan Friendship Society
Akhmedov Durbek Kudratillayevich, Doctor of Economic Sciences (DSc), Professor
Akhmedov Sayfullo Normatovich, Doctor of Economic Sciences (DSc), Professor
Abdurakhmanova Gulnora Kalandarovna, Doctor of Economic Sciences (DSc), Professor
Kalonov Mukhiddin Bakhridinovich, Doctor of Economic Sciences (DSc), Professor
Siddikova Sadokat Gafforovna, Doctor of Philosophy (PhD) in Pedagogical Sciences
Khudoykulov Sadirdin Karimovich, Doctor of Economic Sciences (DSc), Professor
Makhmudov Nosir, Doctor of Economic Sciences (DSc), Professor
Yuldashev Mutallib Ibragimovich, Doctor of Economic Sciences (DSc), Professor
Samadov Askarjon Nishonovich, Candidate of Economic Sciences, Professor
Slizovskiy Dmitriy Yegorovich, Doctor of Technical Sciences (DSc), Professor
Mustafakulov Sherzod Igamberdiyevich, Doctor of Economic Sciences (DSc), Professor
Akhmedov Ikrom Akramovich, Doctor of Economic Sciences (DSc), Professor
Eshtayev Alisher Abduganiyevich, Doctor of Economic Sciences (DSc), Professor
Khajiyev Bakhtiyor Dushaboyevich, Doctor of Economic Sciences (DSc), Professor
Khakimov Nazar Khakimovich, Doctor of Philosophy (DSc), Professor
Musayeva Shoira Azimovna, Doctor of Philosophy (PhD) in Economic Sciences, Professor
Ali Konak, Doctor of Economic Sciences (DSc), Professor (Turkey)
Cham Tat Huei, Doctor of Philosophy (PhD), Professor (Malaysia)
Foziljonov Ibrokhimjon Sotvoldikhoja ugli, Doctor of Philosophy (PhD) in Economic Sciences, Associate Professor
Fakhridinov Zafarjon Fakhridin ogli, Head of the DCEC under the Prosecutor General's Office of the Rep. of Uzb.
Utayev Uktam Choriyevich, Deputy Prosecutor of Anijan Region
Ochilov Farkhod, Head of the Namangan Regional Department of the Department of Internal Affairs of Rep. of Uzb.
Buzrukkhonov Sarvarkhon Munavvarkhonovich, Candidate of Economic Sciences, Associate Professor
Akhmedov Javokhir Jamolovich, Doctor of Philosophy (PhD) in Economic Sciences
Tokhirov Jaloliddin Ochil ugli, Doctor of Philosophy (PhD) in Technical Sciences, Senior Lecturer
Bobobekov Ergash Abdumalikovich, Doctor of Philosophy (PhD) in Economic Sciences, Acting Associate Professor
Judi Smetana, Candidate of Pedagogical Sciences, Associate Professor (USA)
Chrissy Lewis, Candidate of Pedagogical Sciences, Associate Professor (USA)
Glazova Marina Victorovna, Doctor of Sciences in Economics (Moscow)
Nosirova Nargiza Jamoliddin kizi, Doctor of Philosophy (PhD) in Economic Sciences, Associate Professor
Sevil Piriyea Karaman, Doctor of Philosophy (PhD) (Turkey)
Mirzaliyev Sanjar Makhamatjon ugli, Head of the Department of Scientific Research and Innovations, TSUE
Ochilov Bobur Bakhtiyor ugli, Senior lecturer at TSUI
Golisheva Yelena Vyacheslavovna, Candidate of Economic Sciences, Associate Professor.
Abdukirimova Dinara Rustamkhanovna, Doctor of Economic Sciences (DSc), Professor
Ikramov Murod Akramovich, Doctor of Economic Sciences (DSc), Professor
Nazarova Ra'no Rustamovna, Doctor of Economic Sciences (DSc), Professor

Ekspertlar kengashi:

Berkinov Bazarbay, iqtisodiyot fanlari doktori (DSc), professor
Po'latov Baxtiyor Alimovich, texnika fanlari doktori (DSc), professor
Aliyev Bekdavlat Aliyevich, falsafa fanlari doktori (DSc), professor
Isakov Janabay Yakubbayevich, iqtisodiyot fanlari doktori (DSc), professor
Xalikov Suyun Ravshanovich, iqtisodiyot fanlari nomzodi, dotsent
Rustamov Ilhomiddin, iqtisodiyot fanlari nomzodi, dotsent
Hakimov Ziyodulla Ahmadovich, iqtisodiyot fanlari doktori, dotsent
Kamilova Iroda Xusniddinovna, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD)
G'afurov Doniyor Orifovich, pedagogika fanlari bo'yicha falsafa doktori (PhD)
Fayziyev Oybek Raximovich, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), dotsent
Tuxtabayev Jamshid Sharafetdinovich, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), dotsent
Xamidova Faridaxon Abdulkarim qizi, iqtisodiyot fanlari doktori, dotsent
Yaxshiboyeva Laylo Abdisattorovna, katta o'qituvchi
Babayeva Zuhra Yuldashevna, mustaqil tadqiqotchi
Komilova Nilufar Karshiboyevna, Geografiya fanlari doktori, professori
Umirzoqov Ja'sur Artiqboy o'g'li, iqtisodiyot fanlari doktori (DSc), dotsent
Zebo Kuldasheva, iqtisodiyot fanlari doktori (DSc), dotsent

Board of Experts:

Berkinov Bazarbay, Doctor of Economic Sciences (DSc), Professor
Pulatov Bakhtiyor Alimovich, Doctor of Technical Sciences (DSc), Professor
Aliyev Bekdavlat Aliyevich, Doctor of Philosophy (DSc), Professor
Isakov Janabay Yakubbayevich, Doctor of Economic Sciences (DSc), Professor
Khalikov Suyun Ravshanovich, Candidate of Economic Sciences, Associate Professor
Rustamov Ilhomiddin, Candidate of Economic Sciences, Associate Professor
Khakimov Ziyodulla Akhmadovich, Doctor of Economic Sciences, Associate Professor
Kamilova Iroda Xusniddinovna, Doctor of Philosophy (PhD) in Economics
Gafurov Doniyor Orifovich, Doctor of Philosophy (PhD) in Pedagogy
Fayziyev Oybek Raximovich, Doctor of Philosophy (PhD) in Economics, Associate Professor
Tukhtabayev Jamshid Sharafetdinovich, Doctor of Philosophy (PhD) in Economics, Associate Professor
Khamidova Faridaxon Abdulkarimovna, Doctor of Economic Sciences, Associate Professor
Yakhshiboyeva Laylo Abdisattorovna, Senior Lecturer
Babayeva Zuhra Yuldashevna, Independent Researcher
Komilova Nilufar Karshiboyevna, Doctor of Geographical Sciences, Professor
Umirzokov Jasur Artiqboy ugli, Doctor of Economic Sciences (DSc), Associate Professor
Zebo Kuldasheva, Doctor of Economic Sciences (DSc), Associate Professor

Abstract: The oil and gas sector are a fundamental pillar of the global economy, providing energy and essential resources that sustain modern life. However, its operations often conflict with the principles of sustainable development and environmental responsibility, creating complex tradeoffs between economic growth and ecological protection. This article examines key environmental challenges associated with exploration, production and processing, including habitat degradation, pollution and greenhouse gas emissions, and analyzes technological, policy and corporate responses aimed at mitigating these impacts. Particular attention is given to innovations such as carbon capture and storage, enhanced oil recovery, the integration of renewable energy, regulatory and fiscal policy frameworks, and the evolving role of corporate social responsibility. By synthesizing recent academic and policy literature, the study identifies major obstacles and promising pathways for aligning oil and gas operations with longterm sustainability goals. The analysis shows that achieving a viable balance requires coordinated action by governments, companies and civil society, as well as transparent, accountable strategies that integrate sustainability into core business models.

Keywords: oil and gas sector, sustainable development, environmental responsibility, carbon capture and storage, enhanced oil recovery, climate change, energy policy, corporate social responsibility, Sustainable Development Goals.

Annotatsiya: Neft va gaz sektori global iqtisodiyotning asosiy ustunlaridan biri bo'lib, zamonaviy hayotni ta'minlovchi energiya hamda muhim resurslarni yetkazib beradi. Biroq ushbu tarmoq faoliyati ko'pincha barqaror rivojlanish va ekologik mas'uliyat tamoyillari bilan ziddiyatga kirishib, iqtisodiy o'sish hamda atrof-muhitni muhofaza qilish o'rtasida murakkab muvozanatni yuzaga keltiradi. Mazkur maqolada geologik qidiruv, qazib olish va qayta ishlash jarayonlari bilan bog'liq asosiy ekologik muammolar, jumladan, tabiiy yashash muhitining degradatsiyasi, ifloslanish va issiqxona gazlari chiqindilari tahlil qilinadi. Shuningdek, ushbu salbiy ta'sirlarni kamaytirishga qaratilgan texnologik yechimlar, davlat siyosati va korporativ yondashuvlar ko'rib chiqiladi. Uglerodni ushlash va saqlash texnologiyalari, neft qazib olishni jadallashtirish usullari, qayta tiklanuvchi energiya manbalarini integratsiya qilish, tartibga soluvchi hamda fiskal siyosat mexanizmlari va korporativ ijtimoiy mas'uliyatning ortib borayotgan ahamiyatiga alohida e'tibor qaratilgan. So'nggi ilmiy va siyosiy manbalarni umumlashtirish asosida neft-gaz sanoatini uzoq muddatli barqaror rivojlanish maqsadlariga moslashtirishdagi asosiy to'siqlar va istiqbolli yo'nalishlar aniqlangan. Tahlillar shuni ko'rsatadiki, iqtisodiy rivojlanish va ekologik barqarorlik o'rtasida maqbul muvozanatga erishish hukumatlar, kompaniyalar hamda fuqarolik jamiyati o'rtasidagi hamkorlikni, shuningdek, barqarorlik tamoyillarini biznes modellarinin ajralmas qismiga aylantiruvchi shaffof va hisobdor strategiyalarni talab etadi.

Kalit so'zlar: neft va gaz sektori, barqaror rivojlanish, ekologik mas'uliyat, uglerodni ushlash va saqlash, neft qazib olishni jadallashtirish, iqlim o'zgarishi, energetika siyosati, korporativ ijtimoiy mas'uliyat, Barqaror rivojlanish maqsadlari.

Аннотация: Нефтегазовый сектор является одной из ключевых опор мировой экономики, обеспечивая энергией и жизненно важными ресурсами современное общество. Вместе с тем его деятельность нередко вступает в противоречие с принципами устойчивого развития и экологической ответственности, создавая сложный баланс между экономическим ростом и охраной окружающей среды. В статье рассматриваются основные экологические проблемы, связанные с разведкой, добычей и переработкой нефти и газа, включая деградацию природных экосистем, загрязнение окружающей среды и выбросы парниковых газов, а также анализируются технологические, государственные и корпоративные меры, направленные на снижение негативного воздействия. Особое внимание уделено технологиям улавливания и хранения углерода, методам повышения нефтеотдачи пластов, интеграции возобновляемых источников энергии, нормативно-правовым и фискальным механизмам регулирования, а также возрастающей роли корпоративной социальной ответственности. На основе обобщения современных научных исследований и документов государственной политики определены основные препятствия и перспективные направления согласования деятельности нефтегазовой отрасли с долгосрочными целями устойчивого развития. Проведённый анализ показывает, что достижение оптимального баланса возможно лишь при скоординированных действиях государства, бизнеса и гражданского общества, а также при реализации прозрачных и подотчётных стратегий, интегрирующих принципы устойчивого развития в основу корпоративных бизнес-моделей.

Ключевые слова: нефтегазовый сектор, устойчивое развитие, экологическая ответственность, улавливание и хранение углерода, повышение нефтеотдачи пластов, изменение климата, энергетическая политика, корпоративная социальная ответственность, Цели устойчивого развития.

INTRODUCTION

The oil and gas sector remains one of the central foundations of the world economy, supplying energy and feedstocks to industry, transport and households across the globe. Its importance to economic growth and energy security has historically justified largescale investment and political support. At the same time, sector activities—from exploration and drilling to refining and transportation—generate substantial environmental pressures, including greenhouse gas emissions, air and water pollution, land disturbance and risks of accidents and spills. The tension between economic benefits and environmental costs has become more pronounced as climate change, biodiversity loss and social concerns move to the forefront of international agendas. Governments, international organizations, investors and civil society increasingly expect oil and gas companies to reduce their environmental footprint and contribute to global sustainability goals. Against this backdrop, understanding how the sector can reconcile sustainable development with environmental responsibility is both a theoretical and practical challenge. This article seeks to clarify the main obstacles, review recent innovations and policy responses, and outline strategic directions for a more sustainable oil and gas industry.

REVIEW OF LITERATURE ON THE SUBJECT

Foreign and domestic literature on sustainability in the oil and gas sector primarily examines environmental impacts, corporate social responsibility and the integration of global climate and development goals [1; 2; 3]. Cherpovitsyn, Rutenko and Solovyeva propose multidimensional indicator systems that capture environmental, socioeconomic and innovation aspects of hydrocarbon resource development, emphasizing the need for comprehensive assessment frameworks rather than narrow financial metrics. Duttagupta et al. focus on the relationship between corporate social responsibility and sustainable development, showing that CSR initiatives in the oil and gas industry can enhance stakeholder trust, reduce regulatory risks and improve competitiveness when they are embedded in core corporate strategies.

Okorie and Li analyze where the emphasis on sustainability lies in global oil and gas operations, revealing that many companies still prioritize efficiency and risk management while devoting less attention to broader social and environmental objectives. Subsequent reviews highlight efforts to align sector activities with the United Nations Sustainable Development Goals, pointing to increasing investment in cleaner technologies, renewable energy and community-oriented projects, but also noting persistent gaps and implementation challenges [4; 5]. International and institutional reports complement this academic literature by outlining pathways for emissions reduction, resilience building and improved governance in the oil and gas sector [6; 7; 10].

They underscore the importance of robust policy frameworks, transparent reporting and stakeholder engagement for steering the industry toward longterm sustainability. Building on these contributions, the present study synthesizes key findings on environmental performance, policy innovation and corporate governance in

order to identify practical routes for balancing economic viability with environmental responsibility in the oil and gas sector [1–10].

RESEARCH METHODOLOGY

This study employs a qualitative, integrative methodology based on a structured review of academic articles, policy documents and casebased analyses. Sources were selected to represent four core dimensions of sustainability in the oil and gas sector:

Environmental impacts of exploration, production, processing and transport.

Technological innovations including CCS, EOR and renewableenergy integration.

Policy and regulatory instruments such as standards, fiscal incentives and international frameworks.

Corporate governance and CSR strategies and their alignment with sustainability goals.

Each source was examined for its treatment of environmental responsibility, sustainable development objectives and practical measures for implementation. The findings were then synthesized thematically to identify recurring challenges, promising approaches and gaps that require further research. The article does not present new empirical data; rather, it offers an analytical overview that can inform future empirical and policy work.

ANALYSIS AND RESULTS

The environmental footprint of the oil and gas sector is extensive and multifaceted. Exploration, drilling and well perforation can fragment habitats, degrade soils and contaminate surface and groundwater, particularly when operations take place in ecologically sensitive regions. Production and refining facilities emit pollutants such as nitrogen oxides, sulfur oxides, volatile organic compounds and particulate matter, contributing to local airquality problems and health risks.

Most importantly, the sector is a major source of greenhouse gases. Carbon dioxide emissions arise from combustion, flaring and energy use in operations, while methane leaks occur along the entire value chain. These emissions significantly exacerbate global climate change and create longterm environmental and socioeconomic consequences. The persistence of highemission practices is often linked to weak regulation, limited monitoring capacity and insufficient incentives for cleaner technologies. Technological innovation provides important tools for reducing environmental impacts and improving resource efficiency. Advances in drilling, reservoir management and process optimization have made it possible to produce hydrocarbons with lower energy use and reduced waste. Carbon capture and storage (CCS) offers a way to mitigate emissions from large point sources by separating carbon dioxide and storing it in geological formations, sometimes in combination with EOR projects [7; 9]. Enhanced oil recovery itself can increase recovery factors and extend the life of existing fields, limiting the need for new exploration and surface disturbance, provided that environmental safeguards are applied. At the same time, many companies are beginning to integrate renewable energy—such as solar and wind—into their operations to power facilities, reduce operational emissions and diversify energy portfolios [4; 10]. While these measures do not eliminate dependence on fossil fuels, they contribute to incremental decarbonization and signal strategic shifts toward more sustainable business models.

Policy frameworks are central to promoting sustainable practices in the oil and gas industry. Governments can influence corporate behavior through a combination of commandandcontrol regulation, marketbased instruments and support for research and innovation. Examples include emission standards, mandatory monitoring and reporting, carbon pricing mechanisms, tax incentives for lowcarbon investments and funding for pilot and demonstration projects [6; 7]. Several jurisdictions have introduced policies specifically targeting methane emissions, flaring reduction or mandatory investment in renewableenergy projects as part of corporate portfolios [3; 4]. Nevertheless, differences in regulatory ambition, enforcement capacity and political stability lead to uneven progress across regions. In settings where institutions are weak or policy signals are inconsistent, companies may lack clear incentives to undertake longterm sustainability investments. Greater harmonization with international agreements and transparency in policy design can help create more predictable environments for sustainable transformation.

Corporate social responsibility has become an important mechanism for integrating sustainability into business practice. CSR programs typically address environmental management, community engagement, human rights, health and safety and ethical conduct. Evidence suggests that meaningful CSR strategies can strengthen corporate reputation, enhance stakeholder relationships and reduce the risk of regulatory or social conflict [2; 5]. However, CSR is effective only when it is closely aligned with core operational and strategic decisions. Where CSR is treated mainly as public relations, it may fail to produce real environmental or

social improvements and could undermine trust. Embedding CSR into governance structures—through clear sustainability targets, independent auditing, stakeholder consultation and transparent reporting—is therefore essential. The literature reviewed indicates that companies that integrate CSR with climate and development goals are better positioned to navigate the evolving energy landscape [2; 5; 8].

CONCLUSIONS AND SUGGESTIONS

The oil and gas sector is at a critical crossroads, facing growing pressure to reconcile its central role in the global economy with the imperative of environmental responsibility and sustainable development. The review presented in this article shows that environmental challenges, particularly greenhouse gas emissions and ecosystem degradation, are serious but can be mitigated through technological innovation, robust policy frameworks and genuine corporate commitment to sustainability. To move toward a more sustainable and environmentally responsible future, several key steps are recommended. Governments should design stable and transparent regulatory and fiscal frameworks that reward lowcarbon investments and penalize highemission practices. Companies need to embed sustainability goals into their core strategies, linking technological upgrades, emissionreduction plans and CSR initiatives to measurable performance indicators.

International organizations and financial institutions can support this transition by facilitating technology transfer, providing funding for cleaner projects and promoting standards aligned with the SDGs and the Paris Agreement. Further research is required to understand the longterm impacts of emerging technologies, compare policy approaches across jurisdictions and refine metrics for evaluating corporate environmental performance. As the global energy landscape continues to evolve, sustained commitment to environmentally sound practices will be essential not only for the future of the oil and gas sector but also for the health of the planet. By placing sustainable development at the forefront of decisionmaking, the industry can gradually move toward a cleaner, more responsible role in the world's energy system.
