IQTISODIYOT&TARAQQIYOT

Ijtimoiy, iqtisodiy, texnologik, ilmiy, ommabop jurnal

Bosh muharrir:

Sharipov Kongiratbay Avezimbetovich

Bosh muharrir o'rinbosari:

Karimov Norboy G'aniyevich

Muharrir:

Qurbonov Sherzod Ismatillayevich

Elektron nashr. 1761 sahifa.

2025-yil, 29-oktyabr

Tahrir hay'ati:

Salimov Oqil Umrzoqovich, O'zbekiston Fanlar akademiyasi akademigi
Abduraxmanov Kalandar Xodjayevich, O'zbekiston Fanlar akademiyasi akademigi
Sharipov Kongiratbay Avezimbetovich, texnika fanlari doktori (DSc), professor
Rae Kvon Chung, Janubiy Koreya, TDIU faxriy professori, "Nobel" mukofoti laureati
Osman Mesten, Turkiya parlamenti a'zosi, Turkiya – O'zbekiston do'stlik jamiyati rahbari
Axmedov Durbek Kudratillayevich, iqtisodiyot fanlari doktori (DSc), professor
Axmedov Sayfullo Normatovich, iqtisodiyot fanlari doktori (DSc), professor
Abduraxmanova Gulnora Kalandarovna, iqtisodiyot fanlari doktori (DSc), professor
Kalonov Muxiddin Baxritdinovich, iqtisodiyot fanlari doktori (DSc), professor
Siddiqova Sadoqat G'afforovna, pedagogika fanlari bo'yicha falsafa doktori (PhD)
Xudoyqulov Sadirdin Karimovich, iqtisodiyot fanlari doktori (DSc), professor
Maxmudov Nosir, iqtisodiyot fanlari doktori (DSc), professor
Yuldashev Mutallib Ibragimovich, iqtisodiyot fanlari doktori (DSc), professor
Samadov Asqarjon Nishonovich, iqtisodiyot fanlari nomzodi, professor
Slizovskiy Dimitriy Yegorovich, texnika fanlari doktori (DSc), professor
Mustafakulov Sherzod Igamberdiyevich, iqtisodiyot fanlari doktori (DSc), professor
Axmedov Ikrom Akramovich, iqtisodiyot fanlari doktori (DSc), professor
Eshtayev Alisher Abdug'aniyevich, iqtisodiyot fanlari doktori (DSc), professor
Xajiyev Baxtiyor Dushaboyevich, iqtisodiyot fanlari doktori (DSc), professor
Hakimov Nazar Hakimovich, falsafa fanlari doktori (DSc), professor
Musayeva Shoirazimovna, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), professor
Ali Konak (Ali Ko'nak), iqtisodiyot fanlari doktori (DSc), professor (Turkiya)
Cham Tat Huei, falsafa fanlari doktori (PhD), professor (Malayziya)
Foziljonov Ibrohimjon Sotvoldix'o'ja o'g'li, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), dots.
Utayev Uktam Choriyevich, O'z.Respub. Bosh prokuraturasi boshqarma boshlig'i o'rinbosari
Ochilov Farkhod, O'zbekiston Respublikasi Bosh prokuraturasi IJQKD boshlig'i
Buzrukhonov Sarvarxon Munavvarxonovich, iqtisodiyot fanlari nomzodi, dotsent
Axmedov Javohir Jamolovich, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD)
Toxirov Jaloliddin Ochil o'g'li, texnika fanlari bo'yicha falsafa doktori (PhD), katta o'qituvchi
Bobobekov Ergash Abdumalikovich, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), v.b. dots.
Djudi Smetana, pedagogika fanlari nomzodi, dotsent (AQSH)
Krissi Lyuis, pedagogika fanlari nomzodi, dotsent (AQSH)
Glazova Marina Viktorovna, Iqtisodiyot fanlari doktori (Moskva)
Nosirova Nargiza Jamoliddin qizi, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), dotsent
Sevil Piriyeva Karaman, falsafa fanlari doktori (PhD) (Turkiya)
Mirzaliyev Sanjar Makhamatjon o'g'li, TDIU ITI departamenti rahbari
Ochilov Bobur Baxtiyor o'g'li, TDIU katta o'qituvchisi
Golisheva Yelena Vyacheslavovna, Iqtisodiyot fanlari nomzodi, dotsent.

IQTISODIYOT&TARAQQIYOT

Ijtimoiy, iqtisodiy, texnologik, ilmiy, ommabop jurnal

Editorial board:

Salimov Okil Umrzokovich, Academician of the Academy of Sciences of Uzbekistan
Abdurakhmanov Kalandar Khodjayevich, Academician of the Academy of Sciences of Uzbekistan
Sharipov Kongiratbay Avezimbetovich, Doctor of Technical Sciences (DSc), Professor
Rae Kwon Chung, South Korea, Honorary Professor at TSUE, Nobel Prize Laureate
Osman Mesten, Member of the Turkish Parliament, Head of the Turkey–Uzbekistan Friendship Society
Akhmedov Durbek Kudratillayevich, Doctor of Economic Sciences (DSc), Professor
Akhmedov Sayfullo Normatovich, Doctor of Economic Sciences (DSc), Professor
Abdurakhmanova Gulnora Kalandarovna, Doctor of Economic Sciences (DSc), Professor
Kalonov Mukhiddin Bakhridinovich, Doctor of Economic Sciences (DSc), Professor
Siddikova Sadokat Gafforovna, Doctor of Philosophy (PhD) in Pedagogical Sciences
Khudoykulov Sadirdin Karimovich, Doctor of Economic Sciences (DSc), Professor
Makhmudov Nosir, Doctor of Economic Sciences (DSc), Professor
Yuldashev Mutallib Ibragimovich, Doctor of Economic Sciences (DSc), Professor
Samadov Askarjon Nishonovich, Candidate of Economic Sciences, Professor
Slizovskiy Dmitriy Yegorovich, Doctor of Technical Sciences (DSc), Professor
Mustafakulov Sherzod Igamberdiyevich, Doctor of Economic Sciences (DSc), Professor
Akhmedov Ikrom Akramovich, Doctor of Economic Sciences (DSc), Professor
Eshtayev Alisher Abduganiyevich, Doctor of Economic Sciences (DSc), Professor
Khajiyev Bakhtiyor Dushaboyevich, Doctor of Economic Sciences (DSc), Professor
Khakimov Nazar Khakimovich, Doctor of Philosophy (DSc), Professor
Musayeva Shoira Azimovna, Doctor of Philosophy (PhD) in Economic Sciences, Professor
Ali Konak, Doctor of Economic Sciences (DSc), Professor (Turkey)
Cham Tat Huei, Doctor of Philosophy (PhD), Professor (Malaysia)
Foziljonov Ibrokhimjon Sotvoldikhoja ugli, Doctor of Philosophy (PhD) in Economic Sciences, Associate Professor
Utayev Uktam Choriyeich, Deputy Head of Department, Prosecutor General's Office of Uzbekistan
Ochilov Farkhod, Head of DCEC, Prosecutor General's Office of Uzbekistan
Buzrukkhonov Sarvarkhon Munavvarkhonovich, Candidate of Economic Sciences, Associate Professor
Akhmedov Javokhir Jamolovich, Doctor of Philosophy (PhD) in Economic Sciences
Tokhirov Jaloliddin Ochil ugli, Doctor of Philosophy (PhD) in Technical Sciences, Senior Lecturer
Bobobekov Ergash Abdumalikovich, Doctor of Philosophy (PhD) in Economic Sciences, Acting Associate Professor
Judi Smetana, Candidate of Pedagogical Sciences, Associate Professor (USA)
Chrissy Lewis, Candidate of Pedagogical Sciences, Associate Professor (USA)
Glazova Marina Victorovna, Doctor of Sciences in Economics (Moscow)
Nosirova Nargiza Jamoliddin kizi, Doctor of Philosophy (PhD) in Economic Sciences, Associate Professor
Sevil Piriyeva Karaman, Doctor of Philosophy (PhD) (Turkey)
Mirzaliyev Sanjar Makhamatjon ugli, Head of the Department of Scientific Research and Innovations, TSUE
Ochilov Bobur Bakhtiyor ugli, Senior lecturer at TSUI
Golisheva Yelena Vyacheslavovna, Candidate of Economic Sciences, Associate Professor.

Ekspertlar kengashi:

Berkinov Bazarbay, iqtisodiyot fanlari doktori (DSc), professor
Po'latov Baxtiyor Alimovich, texnika fanlari doktori (DSc), professor
Aliyev Bekdavlal Aliyevich, falsafa fanlari doktori (DSc), professor
Isakov Janabay Yakubbayevich, iqtisodiyot fanlari doktori (DSc), professor
Xalikov Suyun Ravshanovich, iqtisodiyot fanlari nomzodi, dotsent
Rustamov Ilhomiddin, iqtisodiyot fanlari nomzodi, dotsent
Hakimov Ziyodulla Ahmadovich, iqtisodiyot fanlari doktori, dotsent
Kamilova Iroda Xusniddinovna, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD)
G'afurov Doniyor Orifovich, pedagogika fanlari bo'yicha falsafa doktori (PhD)
Fayziyev Oybek Raximovich, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), dotsent
Tuxtabayev Jamshid Sharafetdinovich, iqtisodiyot fanlari bo'yicha falsafa doktori (PhD), dotsent
Xamidova Faridaxon Abdulkarim qizi, iqtisodiyot fanlari doktori, dotsent
Yaxshiboyeva Laylo Abdisattorovna, katta o'qituvchi
Babayeva Zuhra Yuldashevna, mustaqil tadqiqotchi
Komilova Nilufar Karshiboyevna, Geografiya fanlari doktori, professori
Umirzoqov Ja'sur Artiqboy o'g'li, iqtisodiyot fanlari doktori (DSc), dotsent
Zebo Kuldasheva, iqtisodiyot fanlari doktori (DSc), dotsent

Board of Experts:

Berkinov Bazarbay, Doctor of Economic Sciences (DSc), Professor
Pulatov Bakhtiyor Alimovich, Doctor of Technical Sciences (DSc), Professor
Aliyev Bekdavlal Aliyevich, Doctor of Philosophy (DSc), Professor
Isakov Janabay Yakubbayevich, Doctor of Economic Sciences (DSc), Professor
Khalikov Suyun Ravshanovich, Candidate of Economic Sciences, Associate Professor
Rustamov Ilhomiddin, Candidate of Economic Sciences, Associate Professor
Khakimov Ziyodulla Akhmadovich, Doctor of Economic Sciences, Associate Professor
Kamilova Iroda Xusniddinovna, Doctor of Philosophy (PhD) in Economics
Gafurov Doniyor Orifovich, Doctor of Philosophy (PhD) in Pedagogy
Fayziyev Oybek Raximovich, Doctor of Philosophy (PhD) in Economics, Associate Professor
Tukhtabayev Jamshid Sharafetdinovich, Doctor of Philosophy (PhD) in Economics, Associate Professor
Khamidova Faridaxon Abdulkarimovna, Doctor of Economic Sciences, Associate Professor
Yakhshiboyeva Laylo Abdisattorovna, Senior Lecturer
Babayeva Zuhra Yuldashevna, Independent Researcher
Komilova Nilufar Karshiboyevna, Doctor of Geographical Sciences, Professor
Umirzokov Jasur Artiqboy ugli, Doctor of Economic Sciences (DSc), Associate Professor
Zebo Kuldasheva, Doctor of Economic Sciences (DSc), Associate Professor

ORCID: 0009-0003-1393-3715

Abstract. This study examines the development priorities of Uzbekistan's fruit and vegetable sector within the framework of national food security policy. Given the country's favorable agro-climatic conditions and its strategic intent to become a regional exporter of horticultural products, the sector holds significant potential for improving food availability, nutritional quality, and rural incomes. However, persistent structural barriers—including weak post-harvest infrastructure, fragmented supply chains, and limited smallholder access to finance and technology—impede progress. A mixed-methods approach combining theoretical models and empirical analysis was used to assess production trends, institutional gaps, and value chain inefficiencies. Key findings suggest that while production volumes have grown, the sector's contribution to sustainable food security is constrained by policy-implementation misalignments and infrastructure deficits. The study highlights critical priorities: investment in cold chains and processing, smallholder inclusion, regional specialization, export competitiveness, and climate-smart practices. Addressing these priorities through coordinated policy, institutional reform, and public-private partnerships can transform the fruit and vegetable sector into a cornerstone of Uzbekistan's food security and economic resilience.

Key words: Food security, fruit and vegetable sector, Uzbekistan, value chain, cold storage, smallholder integration, agricultural policy, climate-smart agriculture.

Annotatsiya. Ushbu tadqiqot O'zbekistonning meva-sabzavot tarmog'ini milliy oziq-ovqat xavfsizligi siyosati doirasida rivojlantirish ustuvor yo'nalishlarini tahlil qiladi. Mamlakatning qulay agroiqlim sharoiti va bog'dorchilik mahsulotlarini mintaqaviy eksport markaziga aylantirish strategik maqsadi tarmoqning oziq-ovqat ta'minoti, oziqlanish sifati va qishloq aholisi daromadlarini oshirishdagi salohiyatini belgilaydi. Shu bilan birga, saqlash va qayta ishlash infratuzilmasining zaifligi, ta'minot zanjirlarining parchalanganligi hamda kichik fermerlarning moliya va texnologiyaga kirish imkoniyatining cheklanganligi rivojlanish jarayonini sekinlashtirmoqda. Tadqiqotda nazariy modellar va empirik tahlil asosida ishlab chiqarish tendensiyalari, institutsional kamchiliklar hamda qiymat zanjiri samaradorligi o'rganildi. Natijalar shuni ko'rsatadiki, ishlab chiqarish hajmlari o'sayotgan bo'lsa-da, tarmoqning barqaror oziq-ovqat xavfsizligiga qo'shayotgan hisssasi siyosat va amaliyot o'rtasidagi nomuvofiqlik hamda infratuzilma yetishmovchiligi bilan cheklanmoqda. Tadqiqot muhim yo'nalishlarni ta'kidlaydi: sovuq zanjir va qayta ishlashga investitsiyalar, kichik ishlab chiqaruvchilarni jalb etish, hududiy ixtisoslashuv, eksport raqobatbardoshligi hamda iqlimga mos qishloq xo'jaligi amaliyotlarini joriy etish. Ushbu ustuvor yo'nalishlarni muvofiqlashtirilgan siyosat, institutsional islohotlar va davlat-xususiy sheriklik orqali amalga oshirish O'zbekistonning meva-sabzavot tarmog'ini oziq-ovqat xavfsizligi va iqtisodiy barqarorlikning asosiy tayanchiga aylantirishi mumkin.

Kalit so'zlar: Oziq-ovqat xavfsizligi, meva-sabzavot tarmog'i, O'zbekiston, qiymat zanjiri, sovuq saqlash, kichik fermerlarni integratsiya qilish, qishloq xo'jaligi siyosati, iqlimga mos qishloq xo'jaligi.

Аннотация. В исследовании рассматриваются приоритетные направления развития фруктово-овощного сектора Узбекистана в рамках национальной политики продовольственной безопасности. Благодаря благоприятным агроклиматическим условиям и стратегическому намерению страны стать региональным экспортером садоводческой продукции, данный сектор обладает значительным потенциалом для улучшения продовольственного обеспечения, качества питания и доходов сельского населения. Однако сохраняющиеся структурные проблемы — слабая инфраструктура послесборочной обработки, фрагментированные цепочки поставок и ограниченный доступ мелких фермеров к финансам и технологиям — тормозят развитие. В работе использован смешанный метод, сочетающий теоретические модели и эмпирический анализ для оценки производственных тенденций, институциональных пробелов и неэффективности цепочек добавленной стоимости. Основные результаты показывают, что, несмотря на рост объемов производства, вклад сектора в устойчивую продовольственную безопасность ограничен несогласованностью политики и практической реализации, а также инфраструктурными дефицитами. Исследование выделяет ключевые приоритеты: инвестиции в холодильные цепи и переработку, вовлечение мелких производителей, региональную специализацию, повышение экспортной конкурентоспособности и внедрение климатически устойчивых технологий. Реализация этих направлений посредством согласованной политики, институциональных реформ и партнерства государства и частного сектора способна превратить фруктово-овощной сектор в основу продовольственной безопасности и экономической устойчивости Узбекистана.

Ключевые слова: Продовольственная безопасность, фруктово-овощной сектор, Узбекистан, цепочка добавленной стоимости, холодное хранение, интеграция мелких фермеров, аграрная политика, климатически устойчивая сельскохозяйственная практика.

INTRODUCTION

In recent years, ensuring food security has become a central strategic priority for many developing countries, including Uzbekistan. As global challenges such as climate change, population growth, and geopolitical disruptions increasingly threaten the stability of food systems, national efforts have turned to optimizing the agricultural sector to meet domestic demand and build resilience. Within this context, the fruit and vegetable sector occupies a pivotal role due to its contribution to nutritional diversity, employment, export potential, and rural livelihoods.

Uzbekistan possesses favorable agro-climatic conditions that support the cultivation of a wide range of fruits and vegetables. The country is among the leading producers of horticultural crops in Central Asia, with major outputs including grapes, melons, apricots, and tomatoes. Despite this natural advantage, the sector faces a range of challenges, such as post-harvest losses, insufficient cold storage infrastructure, outdated irrigation methods, limited access to financing for farmers, and logistical bottlenecks in domestic and international distribution.

Recognizing the strategic significance of horticulture, the Government of Uzbekistan has adopted several national strategies and legal frameworks aimed at modernizing the sector. Initiatives such as the Strategy for the Development of Agriculture of the Republic of Uzbekistan for 2020–2030 and reforms in land use rights, investment incentives, and export facilitation signal a strong policy commitment to the sector's development. However, these measures require more targeted and coordinated implementation, particularly in light of global best practices in value chain development and climate-smart agriculture.

The urgency to enhance domestic food supply in the face of rising consumer demand and inflation also necessitates the re-evaluation of current production and supply chain practices. Therefore, identifying development priorities that align with national food security objectives is not only timely but essential.

This study aims to explore the strategic directions for the development of Uzbekistan's fruit and vegetable sector by: evaluating its current state and contribution to national food security; identifying key structural, financial, and technological bottlenecks; proposing evidence-based priorities to improve sector efficiency and sustainability.

Ultimately, the findings of this research are expected to support policymakers, agricultural producers, and development partners in shaping a robust and inclusive horticulture strategy that contributes to long-term food security and economic stability in Uzbekistan.

MATERIALS AND METHODS

This study employs a mixed-methods approach, combining quantitative analysis of statistical data with qualitative insights from policy documents, expert interviews, and case studies. This design ensures a comprehensive understanding of the current state, challenges, and opportunities within the fruit and vegetable sector in Uzbekistan.

Secondary Data were collected from: National databases (State Committee on Statistics of Uzbekistan, Ministry of Agriculture); FAO, World Bank, and UNDP reports on Uzbekistan's agriculture; Scientific literature (2020–2024) focusing on horticulture and food security; Strategic documents such as the “Agriculture Development Strategy 2020–2030” and the “Food Security Framework of Uzbekistan”.

Primary Data included. Semi-structured interviews with: agricultural policymakers; horticulture experts from research institutions; large- and small-scale fruit and vegetable producers; representatives of agribusinesses and logistics companies; Field observations in selected horticulture clusters (e.g., Samarkand, Fergana Valley).

Purposive sampling was used to select regions with high relevance to horticulture and food supply chains. The regions were selected based on: crop diversity; market access; degree of government support; proximity to export routes.

Data Analysis Techniques. Descriptive Statistics were used to assess: area under cultivation, yield, productivity trends (2015–2024); trade volumes and export structure of fruit and vegetable products; investment flows and infrastructure availability.

SWOT Analysis helped identify: internal strengths and weaknesses of the sector; external opportunities and threats, particularly in relation to food supply resilience.

Value Chain Analysis (VCA) was conducted to map the production, processing, and distribution stages, highlighting bottlenecks in cold storage, transport, and market linkage.

Policy Gap Assessment was applied to evaluate the alignment between existing agricultural strategies and actual implementation outcomes related to food security.

Limitations of the Study: the availability and reliability of regional data varied across provinces; some interviews were affected by accessibility constraints or respondent hesitation due to commercial sensitivity; environmental/climatic variability across seasons may limit the comparability of production statistics.

RESULTS AND ANALYSIS

The theoretical analysis of the fruit and vegetable sector's development in the context of food security is grounded in several economic and agricultural development theories, which help interpret structural and policy-level dynamics within Uzbekistan's agrarian sector.

1. Food Security Framework

According to the FAO's four-dimensional framework (availability, access, utilization, and stability), food security depends not only on the volume of production but also on the systemic efficiency of agricultural and distribution chains. Within this paradigm, fruits and vegetables are crucial for: Availability – as a primary source of micronutrients and fresh produce; Access – due to their seasonal variability and price sensitivity; Utilization – based on dietary diversity and nutritional value; Stability – as they are vulnerable to post-harvest losses and climate shocks.

The theoretical implication is that a resilient horticultural system must address more than productivity—it must encompass access to markets, affordability, food safety, and continuity of supply.

2. Structural Transformation Theory

This theory posits that as economies develop, labor and resources should transition from low-productivity agriculture to high-productivity sectors. However, in Uzbekistan's case, the fruit and vegetable sector have the potential to combine productivity growth with rural employment, thus resisting the need to shift entirely away from agriculture.

The sector's development aligns with inclusive growth theory, where improving rural income levels through higher-value crop production (like fruits and vegetables) can reduce poverty and enhance food purchasing power at the household level.

3. Agricultural Value Chain Theory

The agricultural value chain (AVC) framework helps assess how value is added at each stage—from input supply to final consumption. Theoretical literature emphasizes: The need for vertical integration to reduce transaction costs; The role of agri-logistics, cold chains, and certification in improving export competitiveness; Importance of coordination among stakeholders (farmers, processors, retailers, exporters) to reduce inefficiencies.

In Uzbekistan, theoretical analysis suggests the absence of coherent value chain governance, leading to price volatility, uneven market access, and limited incentive for post-harvest investments.

4. Resource-Based View (RBV) and Comparative Advantage

According to the RBV in agricultural economics, countries should leverage their unique climatic, soil, and human resource assets. Uzbekistan has a natural comparative advantage in producing early-season fruits and vegetables due to its continental climate and high solar radiation. However, theory suggests that comparative advantage must be enhanced through infrastructure, innovation, and institutional support—otherwise it remains underutilized.

5. Innovation Diffusion Theory

Theoretical models of technology adoption (e.g., Rogers’ Diffusion of Innovations) explain why smallholder farmers are slow to adopt drip irrigation, greenhouse technologies, or precision farming in Uzbekistan. Barriers such as: Risk aversion; Limited financial literacy; Weak extension services are commonly cited in the literature. The model highlights the need for demonstration projects, subsidies, and cooperative models to accelerate adoption.

6. SWOT-Theory Based Strategic Assessment

Using SWOT (Strengths, Weaknesses, Opportunities, Threats) theory, strategic analysis involves aligning internal capabilities with external conditions. For Uzbekistan: Strengths: Agro-climatic potential, government reform momentum. Weaknesses: Fragmentation, poor logistics. Opportunities: Rising demand in neighboring and Gulf countries. Threats: Environmental degradation, water scarcity.

Strategically, theoretical literature suggests shifting from production-based strategies to market-based and value-driven strategies, including export diversification and climate-smart agriculture.

7. Institutional Economics Perspective

This lens considers how formal institutions (laws, policies) and informal norms (traditions, market practices) shape sector outcomes. In Uzbekistan, policy inertia, weak enforcement, and fragmented coordination hinder the translation of agricultural strategies into tangible outcomes. Thus, strengthening institutions, improving inter-agency coordination, and enhancing transparency are theoretically necessary for sector transformation.

Synthesis. The theoretical results show that the fruit and vegetable sector’s contribution to food security in Uzbekistan depends not only on production levels but on: strategic value chain management; institutional reforms; market integration; technological innovation; equitable access and participation of smallholders.

These insights form the basis for designing evidence-based development priorities in alignment with the broader goals of sustainable food systems and economic development.

Analysis of statistical data from the State Committee on Statistics of Uzbekistan reveals the following:

Table 1. Production Trends and Regional Disparities (2015–2024)

Indicator	2015	2020	2024*	% Growth (2015–2024)
Fruit production (mln tons)	2.1	2.6	3.0	+43%
Vegetable production (mln tons)	6.8	8.4	9.7	+42.6%
Export volume (mln USD)	428	780	1,030	+140.7%

*2024 data estimated based on January–May figures and trend projection.

These figures indicate steady growth in output and exports, largely driven by increased investment in horticulture clusters in Samarkand, Fergana, and Tashkent regions. However, productivity growth remains inconsistent due to outdated irrigation, limited mechanization, and climate variability.

Table 2. SWOT Analysis of the Fruit and Vegetable Sector

Strengths	Weaknesses
Favorable agro-climatic zones	Post-harvest losses (15–25%)
High biodiversity and exportable varieties	Insufficient cold storage and packaging
Government support and subsidies	Fragmented smallholder production
Opportunities	Threats
Expansion into regional and Gulf markets	Water scarcity and land degradation
Development of agro-logistics clusters	Vulnerability to climate shocks and pests
Investment in digital and precision farming	Trade barriers and certification limitations

Value Chain Analysis (VCA). Input stage: Dominated by imports of fertilizers, seeds, and drip irrigation systems. High costs reduce access for smallholders. Production stage: Productivity gaps exist between modern farms (10–12 tons/ha for tomatoes) and traditional farms (6–7 tons/ha). Post-harvest and processing: Only ~20% of produce is processed; cold chain coverage remains under 30%, contributing to large seasonal losses. Marketing and Export: Access to international markets has improved since 2017, but compliance with SPS standards (Sanitary and Phytosanitary) remains an issue for many farms.

Policy Alignment Assessment. Analysis of the Agricultural Development Strategy (2020–2030) and the Food Security Program reveals: A gap between planned objectives (e.g., 50% reduction in post-harvest loss by 2025)

and actual progress (only ~12% improvement to date). Insufficient monitoring indicators for nutrition-sensitive agriculture in fruit/vegetable policies. Inconsistent implementation of regional subsidies due to bureaucratic delays and lack of digital registration systems.

Key Findings: The fruit and vegetable sector plays a vital but under-optimized role in Uzbekistan's food security strategy. Production growth has not been matched by equivalent progress in infrastructure, value addition, and smallholder inclusion.

Major priorities include: Expanding cold storage and processing capacity. Promoting climate-resilient and water-efficient technologies. Enhancing export competitiveness through quality certification and branding.

DISCUSSION

The findings of this study confirm that the fruit and vegetable sector in Uzbekistan is both strategically significant and underutilized in the context of national food security. Despite natural advantages such as favorable climatic conditions, a long growing season, and a rich variety of horticultural crops, the sector continues to face persistent structural and institutional challenges. This discussion synthesizes the key results with broader theoretical perspectives and policy implications.

1. Relevance to Food Security Dimensions

The role of the fruit and vegetable sector extends beyond food availability to directly affect nutritional quality, market access, and stability of supply. As emphasized by the FAO's four-pillar model of food security, the lack of cold storage and value-added processing leads to significant post-harvest losses, reducing actual availability and inflating consumer prices—particularly during off-season months. This weakens food access for low-income households, especially in urban areas. Furthermore, the underdevelopment of storage and logistics impairs the stability of supply chains, making them vulnerable to climatic shocks, market fluctuations, and regional transport disruptions.

2. Institutional and Policy Gaps

While Uzbekistan's Agricultural Development Strategy 2020–2030 outlines progressive goals such as reducing post-harvest losses and expanding export capacity, implementation remains uneven. This is consistent with institutional economics theory, which argues that formal policy is often weakened by fragmented governance, inconsistent enforcement, and lack of capacity at the local level. A key barrier remains the disconnection between national-level planning and local-level realities, including limited awareness among farmers about government support programs and certification requirements for international trade.

3. Smallholder Integration and Innovation Diffusion

Empirical evidence shows that smallholder farmers dominate the horticulture sector but often lack access to modern inputs, storage technologies, or financing. As explained by innovation diffusion theory, these farmers are often risk-averse and lack incentives to adopt new practices in the absence of targeted training, affordable financing, or cooperative models. A stronger push for extension services, demonstration farms, and inclusive digital platforms could accelerate adoption of climate-resilient and water-efficient technologies, especially in regions vulnerable to water scarcity.

4. Comparative Advantage and Export Diversification

Uzbekistan has a clear comparative advantage in the early-season production of fruits and vegetables. However, realization of this advantage depends on certification systems, logistics infrastructure, and market branding. Currently, many producers fail to meet SPS (Sanitary and Phytosanitary) standards required for high-value markets like the EU and Gulf countries.

Thus, the development of the sector must include a dual strategy: ensuring domestic food sufficiency through improved local supply chains; facilitating export competitiveness through certification, traceability systems, and trade diplomacy.

5. Toward a Value Chain-Based Approach

The analysis of the sector through a value chain lens reveals inefficiencies at nearly every stage—particularly between harvest and consumption. Addressing these gaps requires a multi-stakeholder coordination platform involving: Ministries (Agriculture, Investment, Trade, Water Resources), Private investors, Farmer cooperatives, Development partners.

This aligns with agricultural value chain theory, which calls for not only infrastructure investment but also institutional innovation—such as contract farming, producer organizations, and integrated market platforms.

6. The Need for Regional Differentiation

While national-level strategies are important, they should be regionally differentiated. For example: Fergana Valley offers high-density farming opportunities; Kashkadarya and Surkhandarya have comparative potential for early melons and vegetables; Tashkent region offers access to urban markets and logistics infrastructure. A more nuanced regional strategy can help ensure equitable development and maximize resource efficiency.

Table 3. Summary of Strategic Directions Emerging from the Discussion

Priority Area	Strategic Action
Cold chain and processing	Invest in post-harvest infrastructure through PPP models
Smallholder inclusion	Strengthen access to finance, extension services, and cooperative frameworks
Export competitiveness	Upgrade standards, certifications, and branding for global markets
Water and climate resilience	Expand adoption of drip irrigation, mulching, and climate-smart practices
Institutional governance	Improve coordination and transparency in policy execution and subsidy delivery
Regional specialization	Tailor horticultural programs to agro-ecological and logistical characteristics

The discussion confirms that the fruit and vegetable sector, if strategically supported, can serve as a cornerstone of food security, rural development, and export growth in Uzbekistan. However, achieving this potential requires coordinated reforms that bridge policy intentions with local-level actions, supported by data-driven planning and public–private partnerships.

CONCLUSION AND RECOMMENDATIONS

The development of the fruit and vegetable sector is a critical component in achieving Uzbekistan's long-term food security goals. As this study has shown, the sector holds significant promise due to the country's favorable agro-climatic conditions, expanding export markets, and government commitment to agricultural modernization. However, this potential remains partially unrealized due to persistent structural inefficiencies, weak post-harvest systems, limited smallholder integration, and fragmented institutional coordination.

Through a combined theoretical and empirical approach, the study has identified that while production volumes have increased steadily, nutritional security, market access, and supply stability remain fragile. These shortcomings are particularly apparent in post-harvest losses, inadequate cold storage capacity, and the slow pace of technological adoption among smallholders.

Moreover, the current policy environment, though progressive on paper, suffers from implementation gaps at the regional and operational levels. A stronger alignment between strategic objectives and on-ground action is necessary, particularly in areas such as value chain development, climate resilience, and inclusive financing mechanisms.

The theoretical frameworks applied in this research—ranging from food security models and innovation diffusion theory to value chain and institutional economics—reinforce the idea that sectoral transformation requires multi-dimensional, multi-actor strategies.

Key Conclusions:

1. **Food Security Contribution:** The fruit and vegetable sector enhances not only food availability but also dietary diversity and economic access—crucial dimensions of food security.
2. **Structural Gaps:** Persistent infrastructural and institutional gaps—especially in logistics, processing, and certification—limit the sector's ability to meet domestic and export demand.
3. **Policy-Action Misalignment:** There is a need to strengthen policy implementation, monitoring mechanisms, and stakeholder coordination to translate national strategies into tangible outcomes.
4. **Smallholder Empowerment:** Without targeted support to small and medium producers, the sector will struggle to achieve equitable and sustainable growth.
5. **Strategic Priorities:** Future development should focus on cold chain investments, regional specialization, climate-smart technologies, export readiness, and institutional reform.

In conclusion, the fruit and vegetable sector can serve as a driver of national food security and economic diversification if integrated into a holistic strategy that combines innovation, investment, and inclusive governance. The research findings provide a foundation for policymakers, investors, and development practitioners to design and implement targeted interventions that strengthen the resilience, efficiency, and equity of Uzbekistan's horticultural system.
